3. The following is an examiner's statement of reasons for allowance:

The prior art of record fail to teach or fairly suggest a method of providing a substantially void free underfill for a flip chip assembly comprising electrically connecting a plurality of contact pads on a surface of a semiconductor chip corresponding bond pads on circuitized substrate such that the connections create a gap between the chip and the substrate, wherein the substrate is rigid; **sealing the gap between the chip and the substrate with a fluid, curable encapsulant so that there is a void therebetween**; applying pressure to the assembly causing the encapsulant to flow into the gap and around the connections; and applying energy to the assembly in order to cure the encapsulant.

Art Unit: 2818

In the present invention, the step of sealing the gap on all sides of the flip chip device with a curable liquid encapsulant for a purpose of providing filling cavities more effective on a semiconductor wafer.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance".
